### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Philip McKay on July 23, 2002.

The application has been amended as follows:

In Claims 9-12, line 1, the number, "1" has been deleted and replaced by --5--.

### ***Reasons for Allowance***

Claims 5-14 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Although, Rovell discloses a CMOS memory sense amplifier which is structurally similar to a clocked half-rail differential logic circuit of present claimed invention, Rovell differs from the present claimed invention because, among other things, Rovell pertains to a method for creating a cascaded chain of clocked half-rail differential logic circuit which comprises coupling a first clock signal to the fifth transistor gate of the first clocked half-rail differential logic circuit,

Art Unit: 2819

coupling a second clock signal to the fifth transistor gate of the second clocked half-rail differential logic circuit, coupling a first clock-not signal to the first and fourth transistor gates of the first clocked half-rail differential logic circuit, coupling a second clock-not signal to the first and fourth transistor gates of the second clocked half-rail differential logic circuit, and delaying the second clock signal with respect to the first clock signal by a predetermined delay time and delaying the second clock-not signal with respect to the first clock-not signal by the predetermined delay time. Accordingly, one of ordinary skill in the art would not have been motivated to modify the teachings of Rovell to meet the claimed limitation as set forth in the present claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
